WEB DEVELOPER

Full stack web application developer skilled at creating interesting applications that allow users to interact with data and information in new and more elegant ways.

TECHNICAL SKILLS

JavaScript, React, Apollo, GraphQL, Redux, Node.js, Express, relational databases, MongoDB, HTML5, CSS3, Git, GitHub, Python, Pandas

EXPERIENCE

Freelance Web Developer, 2018 - Present

Aqqaint
- Heavily involved with developing a social network mobile application written in Python with a PostgreSQL database back end. This involved using the following Amazon Web Services: Simple Notification Service, Lambda, Relational Database Service, and Simple Storage Service.
- Contributed to front end codebase and design using React Native.

Snippet
- Built a chrome extension that allows users to select and save text snippets that they can later search for.

Full Stack Web Developer, LawMatics, 9/2017 - 1/2018
- Used React, Apollo, GraphQL, Rails, and PostgreSQL to create a CRM for law firms to manage their prospective clients, build custom forms, and create marketing workflows.

Web Development Intern, DoWhop, 8/2017 – 9/2017
- Transitioned a vanilla JavaScript app to React.
- Refactored existing code to be much cleaner and easier to understand.

EDUCATION

Full Stack Web Development Program, THINKFUL, 2017
- Completed an intensive, six-month course on modern full stack JavaScript development.
- Studied new languages / frameworks to develop the skills required to create and deploy applications.
- Prepared for practical applications through mock interviews and coding challenges.
- Focus: HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithms & data structures.

Psychology, with STEM focus, UNIVERSITY OF MINNESOTA, 2011

Relevant coursework in Calculus & C/C++ programming
